

IWASAKI, Ichiro

Professor, Research Division of Comparative and World Economics,
Institute of Economic Research, Hitotsubashi University

Date of Birth:	January 4, 1966
Education:	1988 B.A. (Economics) Chiba University
	1997 M.A. (Economics) Hitotsubashi University
	2001 Dr. (Economics) Hitotsubashi University
Positions held:	1988 Joined the Ministry of Foreign Affairs (MOFA), Japan
	1989 Attache, Japanese Embassy in London, the United Kingdom
	1990 Secretary, Japanese Embassy in Moscow, USSR (Russian Federation)
	1994 Retired from MOFA
	2000 Research Associate, Department of Economics, Hitotsubashi University
	2001 Research Fellow, Institute of Russian & East European Economic Studies, Japan Association for Trade with Russia & Central-Eastern Europe
	2002 Lecturer, Institute of Economic Research, Hitotsubashi University
	2004 Associate Professor, Institute of Economic Research, Hitotsubashi University
	2009 Professor, Institute of Economic Research, Hitotsubashi University
	2009 Visiting Professor, School on Local Development, University of Trento
	2010-12 Council Member, Hitotsubashi University
	2014 Visiting Professor, Institute of Economic Research, University of Kyoto
	2014-15 Council Member, Hitotsubashi University (Reelected)
	2015 Visiting Researcher, Sorbonne Economic Centre, University of Paris 1

Previous research:

My main area of research is the economic study of post-socialist transition countries – an interest that has been borne as a result of having spent a total of six years as a diplomat at the Ministry of Foreign and Affairs and Japan's embassy in the Soviet Union/Russian Federation. I subsequently enrolled in Hitotsubashi University's

graduate program, and for my PhD in economics, which I obtained in 2001, conducted a comparative study of economic institutions in the Central Asian countries of the former Soviet Union. Once employed at the Institute, I expanded my research area to include Russia and Hungary and engaged in a comparative study of the transition process to a market economy and enterprise reform in these two countries. With regard to theory, I have a strong interest in theoretical issues related to economic institutions, the comparison of enterprise systems, organizational economics, and the analysis of economics and the law.

Current research projects:

The main research topics and projects I am currently involved in can be broadly categorized into the following five areas: (1) empirical study of the impacts of European crisis on emerging markets, (2) meta-analysis of the 25-year history of post-communist transition to a market economy; (3) empirical analysis of the Russian corporate system; (4) industrial linkages between multinational corporations and regional economies in Hungary; (5) compilation of long-term statistics on the countries of Central Asia. Among these topics, I am particularly concentrating on the first two projects: In 2010, I have launched a project to establish a Japan-made comparative transition economics through a meta-analysis of the 20-year history of the systemic transformation towards a market economy in Central and Eastern Europe and the former Soviet Union. Furthermore, in 2015, I also started an international project which aims to empirically examine the impacts of European political and economic crises on former socialist emerging markets, focusing on the Ukrainian crisis in 2014.

Key words: economics of transition, comparative corporate systems, organizational economics, law and economics, meta-analysis, corporate governance, Russia, Hungary, Central Asia.

Academic award received:

- 2005 The Sixth NIRA Okita Award for Policy Research, the National Institute of Research Advancement, Government of Japan
- 2008 Erasmus Mundus Scholarship Award, EU Committee
- 2011 The 32nd Award for Promotion of Studies on Developing Countries, the Institute of Developing Economies, The Japan External Trade Organization
- 2013 Diploma, Russian National Prize in Applied Economics
- 2016 Commendation of Appreciation from National Research University – Higher School of Economics
- 2017 Academic Award of the Japan Association for the Comparative Studies of Management

Refereed works for academic journals (selected):

Communist and Post-Communist Studies, Comparative Economic Studies, Corporate Board: Role, Duties and Composition, Corporate Governance: An International Review, Eastern European Economics, Economics Bulletin, Economic Change and Restructuring (formerly Economics of Planning), Economic Inquiry, Economic Systems, Economics of Innovation and New Technology, Emerging Markets Finance and Trade, International Journal of Emerging Markets, Journal of Comparative Economic Studies, Journal of Economic Policy Reform, Journal of Economic Surveys, Post-Communist Economies, Review of Development Economics, Routledge Book Proposal, World Development, Working Paper Series of the Czech National Bank, Вопросы Экономики
